

*The graph above shows the actual ecological flow data-the amount of water left to the Paravani River from Paravani HEPP for May 2023.*

*The minimum permitted ecological flow of Paravani HEPP is 1,75 m3/sec.*

*The increased flow for the dates 01th, 05th, 07th, 11th and 12th was due to stop at generation, when no water was drawn to intake.*

*The increased flow from 13th to 15th and 21th May was due to seasonality effect, when the amount of water at intake was more than the Plant's capacity.*
